

ANNUAL REPORT

2016-2017

NOT CHARITY, BUT EMPOWERED

At proVISION ASIA, our mission is to people who have disabilities to lead independent and fulfilling lives; to extend a hand up-not a hand out; inspiring hope by providing an environment that fosters holistic transformation; enabling people affected by disability to experience abundant life to reach their highest potential for which God created them.

OUR WORK

Mobility Distribution Camp: We distribute mobility aids like wheelchairs, walkers, walking sticks & three-wheeled vehicles in Bangalore city and villages across Karnataka. The wheelchairs are provided by Joni and Friends International Disability Center in the USA and refurbished by ten inmates at the Bangalore Central Prison.

Mithra Special School: Our 14 students range from the age of three years to twelve years, with both physical and intellectual disabilities. This learning center incorporates a growing library, outdoor play area with safe equipment, an accessible toilet, separate room for individual instruction and group work, and a kitchen for meal preparation. We provide a platform for the parents of these students to be able to work; therefore improving their socio-economic condition.

empowHER: Our goal is to provide quality education to 5 women who have disabilities. It is a three month intensive course that focuses on spoken English, basic computer skills and personal development. At the end of the program, we assist the student in finding a job.

TCS World 10K Bangalore: More than 450 individuals and five corporations represented us in Kanteerava Stadium, Bangalore. Internationally, 80 people participated from seven global locations. Together, we champion the cause for people with disabilities. This year we were delighted to receive the award for the second-highest fundraising charity, among 89 charities that participated all across India.

Education Assistance and Scooter Modification: In partnership with the Overseas Women's Club of Bangalore, we educated 48 students and modified ten scooters to fit individual disabilities.

Project MADHU Mobile Diabetes Clinic: Launched in partnership with Medtronic Inc., focuses on awareness, prevention, and management of diabetes in rural and urban Bangalore. Our fully staffed team have helped over 950 people.

PlayGroup and Friendship Circle:

Beyond the physical needs, social interaction must be addressed. We cater to social, emotional and spiritual growth. Recreation and respite enhances the quality of life for our friends. Eleven PlayGroups and fifteen Friendship Circles were held throughout the year.

Disability Awareness: proVISION ASIA teaches children (and adults) "How to be a BETTER FRIEND to a person with a disability". Corporate training, school assemblies, contextual classroom instruction, sign language, choreography and group interaction help focus disability awareness in a new light. From Pre-K to post graduate programs, education and inclusion impacts everyone.

TOTAL NO. OF PEOPLE SERVED

We continue to steadily increase the number of people we serve in our surrounding communities and across Karnataka.

In my crazy schedule between working full time and helping my wife with her fitness center, making time to do anything else besides sleeping was never in my agenda. Then I met Keturah from proVison Asia and somehow my priorities had a subtle change. I met the wonderful team of proVison and realized that even one person can make a difference. It is heartening to see them work sincerely and diligently towards the well-being of the differently enabled. Whether it is to meet their play group or raise funds during their annual event, I feel humbled to have the opportunity to help in my own small way. Thanks Keturah!

ProVison ASIA provides great physical therapy and care to all families with disabilities. It was truly amazing to see all the good they are doing in the community in teaching and educating parents how to better care for their children with special needs. As a American physical therapy student, I was over joyed to see the type of care Shikha provided. This organization and staff were so welcoming and accommodating to every person that walked through the door!

Such a sunny and positive team, a real good-to-the-bone honest charity.

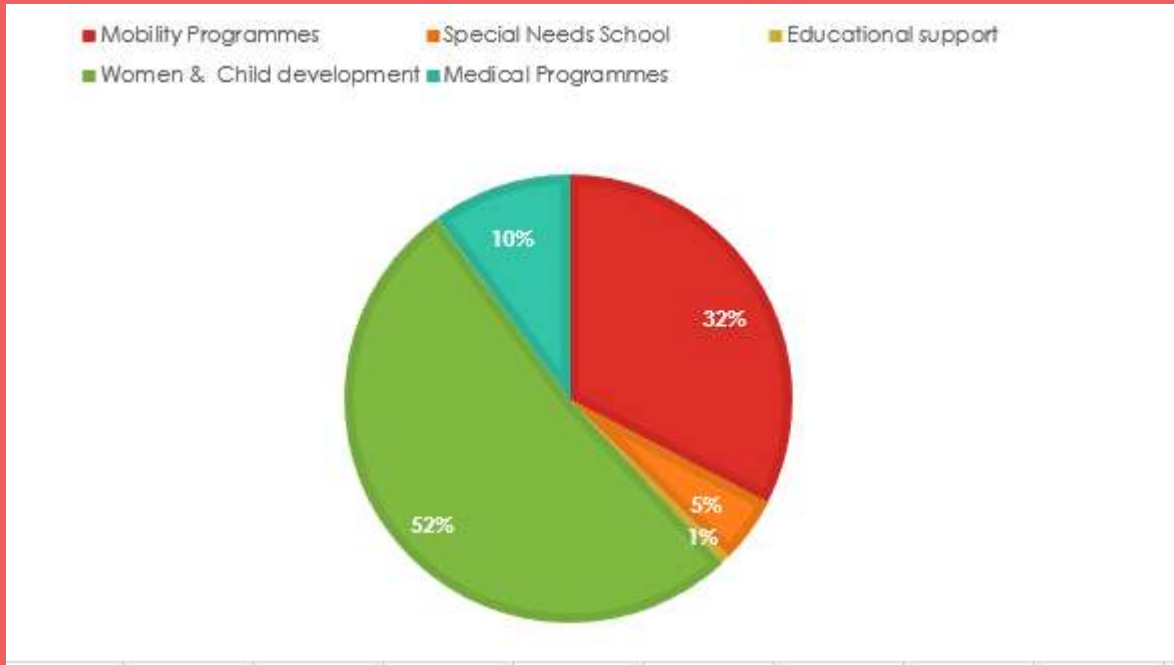

OUR TEAM

OUR FINANCES

Our commitment to accountability and transparency is an expression of our core value of 'stewardship.' We strive to maintain the highest standards of professional competence; and accept the need to be accountable through appropriate structures for achieving these standards.

Thank you to our auditors R K Khanna and Associates, Bangalore, for helping us in this regard. Our financial statements are available upon request.
